

Basingstoke Half Marathon and 10k

Join the Workplace Challenge on 3 October!

Organisers and sponsors of the Basingstoke Half Marathon and 10k are challenging local businesses and other employers to join them in the Workplace Challenge at the Basingstoke Half Marathon and 10k race on Sunday 3 October.

The half marathon has built a hugely loyal following with many local runners taking part each year, and in its 10th year all the partners are keen to get more local employers involved by putting together a corporate team.

“Entering the Workplace Challenge isn’t just about race day, it is about building a team, training together, and putting staff health and wellbeing high on the agenda. After a difficult year where running was often the only outlet, this is a chance to bring your team together in one great event. There is a trophy for the fastest team, but there is much more to it than speed,” said Jane Staff from Destination Basingstoke.

Teams need to be made up of at least 3 members that register with the same team name so it is open to employers of all sizes. Team entries can be to the 10k or Half Marathon.

“Staff wellbeing has always been an important issue, but never has it been more crucial than now. Phillips have always enjoyed the team building and social side of training and running together, as well as the fabulous atmosphere on race day – this year we expect to have 50 in our team, and expect some strong competition from other businesses for the trophy!” commented Jack Gardener Director of Phillips Solicitors, headline sponsors for the event.

Contact Jane Staff at Destination Basingstoke to get started on the Challenge or visit the web site <https://www.destinationbasingstoke.co.uk/half-marathon/workplace-challenge/>
